## DESIGNED FOR PERFECTION

UV-BOX series supports deep disinfection of a wide range of objects and tools.

Proper design and calibration ensure delivery of the necessary dose to achieve the highest possible disinfection level.

The chambers are designed with safety measures to prevent exposure to UV light during operation.

UV-BOX-E3

UV-BOX-E2

KEY PRODUCT FEATURES

→ **Application,** suitable for various settings, including healthcare facilities, laboratories, food processing industries, hospitality industry, and more

→ **Fit Anywhere,** available with multiple doors, wall-mounted or floor standing.

→ **Increased Disinfection Performance,** with High-Output UV-C lamps (253,7 nm) and internal wall reflection.

→ **Built to Last,** in high-quality Stainless Steel AISI 304, all material tested for UV resistance.

→ **Easy to use,** set disinfection cycles with a settable timer and automatic switching ON-OFF (automatic switch only on E3 models).

MICROBIAL TESTS AND EFFICACY

Up-to log6 microbial reduction with a 3 minutes treatment

Light Progress customers rely on our extensive history of third party testing and proven efficacy to meet any level of disinfection validated against literally any virus or microorganism.

We understand your need to meet Regulatory Requirements and Industrial Standards as we help you achieve microbial load reduction using our UV systems.
